EXPERIENCE

Administrative Officer, Threat Management Division

Ministry of Science and ICT

Jan 2022 – Present

Sejong, Republic of Korea

- Supported cyber incident response and threat management for government and public-sector critical infrastructure.
- Coordinated planning and response activities for high-impact security incidents affecting essential services and public institutions.

Administrative Officer, Security Planning Division

Ministry of Science and ICT

May 2018 – Jan 2022

Sejong, Republic of Korea

- Planned information security strategy and protection measures for national critical infrastructure.
- Participated in vulnerability assessments and mitigation planning across government and other high-value systems.

Software Developer

KEPCO E&C

Apr 2015 – Mar 2018

Gimcheon, Republic of Korea

- Developed Nuclear Steam Supply System design software in a safety-critical engineering environment.
- Led reactor design software and NEW-EDB engineering database development while supporting cybersecurity responsibilities.

SKILLS

Programming	Python, Java, Spring MVC, C/C++, C#, JavaScript, SQL, Database Development, HTML/CSS
AI/ML	Machine Learning, Model Training, Evaluation, and Feature Engineering with Scikit-learn, PyTorch, TensorFlow, NumPy, and pandas
Security	Incident Response, Threat Analysis, Penetration Testing, Red Teaming, Network Security, Infrastructure Security
Languages	Korean (Native), English (Fluent), Japanese (Intermediate)

EDUCATION

Master of Science in Computer Science, University of California, Davis

Expected Jun 2027

Korean Government Long-term Fellowship for Overseas Study, Ministry of Science and ICT

Bachelor of Science in Computer Software, Kwangwoon University

Feb 2015

CERTIFICATIONS

Engineer Information Processing, HRDK (2013) SQL Developer, Korea Data Agency (2014) Locked Shields, NATO CCD-COE (2023) Advanced Web Application Exploits, Black Hat Training USA (2021)

RESEARCH EXPERIENCE

Cyber Incident Response Research for Critical Infrastructure

Jun 2023 – Jun 2024

- Researched incident response strategies by analyzing infrastructure used by international hacking groups in collaboration with KISA.

Cyber Vulnerability Research for Critical Infrastructure

Apr 2019 – Apr 2020

- Conducted vulnerability analysis for power trading, nuclear power, and railway systems in collaboration with KISA.
