PROFESSIONAL SUMMARY

Engineer with 10+ years of experience delivering software, cybersecurity, and technical solutions for critical infrastructure and public-sector environments. Brings hands-on experience in malware analysis, incident response, red teaming, and production software engineering, and is currently pursuing an M.S. in Computer Science focused on machine learning, LLMs, and generative AI. Offers a cross-disciplinary background spanning security, software, and AI/ML, translating complex customer and mission needs into secure, scalable, high-impact solutions.

EXPERIENCE

Administrative Officer (Cyber Threat Intelligence), Threat Management Division

Ministry of Science and ICT

Jan 2022 – Present

Sejong, Republic of Korea

- Delivered 500+ public cyber threat intelligence (CTI) cases per year to central government agencies by leading malware analysis, attack-evidence collection, and technical reporting on APT groups for incident response and remediation.

Administrative Officer (Security Engineering), Security Planning Division

Ministry of Science and ICT

May 2018 – Jan 2022

Sejong, Republic of Korea

- Delivered penetration testing, red teaming, and cyber security consulting for remediation to 50+ public institutions annually (200+ total) in Korea, and conducted AI-assisted technical security assessments and vulnerability analysis for critical infrastructure networks and software supporting nuclear and thermal power, railway control, and power systems.

Software Developer, Reactor Design Development Division

KEPCO E&C

Nov 2014 – Mar 2018

Gimcheon, Republic of Korea

- Developed reactor design software for nuclear power plants and designed and built an engineering database for plant design workflows over 3+ years, while performing vulnerability assessments and secure coding remediation for critical information and communications infrastructure including reactor software and engineering databases.

SKILLS

Programming	Python, Java, Spring MVC, C/C++, C#, JavaScript, SQL, HTML/CSS
Security	Malware Analysis, Red Teaming, Penetration Testing, Incident Response, Technical Security Assessments, Threat Modeling, Vulnerability Assessments
AI/ML	Machine Learning, LLMs, Generative AI, Prompt Engineering, Fine-Tuning, RAG, Agentic Systems, Model Evaluation, and MLOps
Tools	Docker, MySQL, PostgreSQL, Oracle, PyTorch, TensorFlow, Scikit-learn, Hugging Face, Burp Suite, Nmap, Wireshark, and IDA Pro
Languages	Korean (Native), English (Fluent), Japanese (Intermediate)

EDUCATION

Master of Science in Computer Science, University of California, Davis

Expected Jun 2027

Korean Government Long-term Fellowship for Overseas Study, Ministry of Science and ICT

Bachelor of Science in Computer Software, Kwangwoon University

Feb 2015

CERTIFICATIONS & TRAINING

Certifications: Engineer Information Processing, HRDK (2013) SQL Developer, Korea Data Agency (2014)

Training: Locked Shields, NATO CCDCOE (2023) Advanced Web Application Exploits, Black Hat Training USA (2021)
