EXPERIENCE

Administrative Officer (Cyber Threat Intelligence), Threat Management Division
Ministry of Science and ICT

Jan 2022 – Present
Sejong, Republic of Korea

- Performed adversary infrastructure tracking, malware analysis, incident analysis, and cross-agency mitigation activities for high-impact incidents affecting essential services and public institutions.
- Led technical cyber incident response, cyber threat intelligence, and threat management operations for government and public-sector critical infrastructure.

Administrative Officer (Security Engineering), Security Planning Division
Ministry of Science and ICT

May 2018 – Jan 2022
Sejong, Republic of Korea

- Performed advanced penetration testing, red teaming, secure coding, vulnerability assessments, and mitigation planning for critical infrastructure and government environments.
- Directed information security strategy and protection measures for national critical infrastructure and other high-value systems.

Software Developer
KEPCO E&C

Nov 2014 – Mar 2018
Gimcheon, Republic of Korea

- Led reactor design software and NEW-EDB engineering database development, and performed vulnerability analysis and secure coding for critical information infrastructure.
- Developed Nuclear Steam Supply System design software in a safety-critical engineering environment.

SKILLS

Programming	Python, Java, Spring MVC, C/C++, C#, JavaScript, SQL, Database Development, HTML/CSS
AI/ML	Machine Learning, Model Development, Evaluation, and Data Processing with Scikit-learn, PyTorch, TensorFlow, NumPy, and pandas
Security	Applied Vulnerability Research, Advanced Penetration Testing / Red Teaming, Security Assessments, Threat Modeling, and Infrastructure Security
Languages	Korean (Native), English (Fluent), Japanese (Intermediate)

EDUCATION

Master of Science in Computer Science, University of California, Davis
Korean Government Long-term Fellowship for Overseas Study, Ministry of Science and ICT

Expected Jun 2027

Bachelor of Science in Computer Software, Kwangwoon University

Feb 2015

RESEARCH EXPERIENCE

Cyber Incident Response Research for Critical Infrastructure

Jun 2023 – Jun 2024

- Researched incident response strategies by analyzing infrastructure used by international hacking groups in collaboration with the Korea Internet & Security Agency (KISA).

Cyber Vulnerability Research for Critical Infrastructure

Apr 2019 – Apr 2020

- Conducted vulnerability analysis for power trading, nuclear power, railway, and electronic voting systems in collaboration with the Korea Internet & Security Agency (KISA).

CERTIFICATIONS

Locked Shields, NATO CCDCOE (2023) Advanced Web Application Exploits, Black Hat Training USA (2021) SQL Developer, Korea Data Agency (2014) Engineer Information Processing, HRDK (2013)
