PROFESSIONAL SUMMARY

Network-focused Software Engineer with 10+ years of experience assessing, securing, and supporting complex networked systems in public-sector and critical-infrastructure environments. Strong background in network vulnerability analysis, penetration testing, red teaming, packet analysis, incident response, and remediation consulting for nuclear, thermal power, railway control, and power-system networks. Combines network security expertise with software engineering and database experience to improve reliability and defensive visibility.

EXPERIENCE

Software Engineer, Threat Management Division
Ministry of Science and ICT

Jan 2022 – Present
Sejong, Republic of Korea

- Delivered 500+ CTI cases per year by analyzing malware, network attack evidence, indicators of compromise, and APT activity, supporting incident response and defensive remediation for government agencies.

Software Engineer, Security Planning Division
Ministry of Science and ICT

May 2018 – Jan 2022
Sejong, Republic of Korea

- Conducted network and application penetration testing, red teaming, and vulnerability analysis for 50+ public institutions annually (200+ total), including critical infrastructure networks supporting nuclear, thermal power, railway control, and power systems.

Software Engineer, Reactor Design Development Division
KEPCO E&C

Nov 2014 – Mar 2018
Gimcheon, Republic of Korea

- Developed reactor design software and engineering databases for nuclear plant workflows while supporting vulnerability assessment and secure remediation for interconnected engineering systems.

SKILLS

Programming	Python, Java, C/C++, C#, JavaScript, HTML/CSS, SQL, Spring MVC
Networking	Network Security, Packet Analysis, Network Penetration Testing, Vulnerability Assessment, Red Teaming, Incident Response, Critical Infrastructure Networks, and Remediation
Security	Malware Analysis, CTI, Threat Modeling, Technical Security Assessments, and Secure Coding
Tools	Wireshark, Nmap, Burp Suite, IDA Pro, MySQL, PostgreSQL, Oracle, Docker, PyTorch, Tensor-Flow, Scikit-learn, and Hugging Face
Languages	Korean (Native), English (Fluent)

EDUCATION

Master of Science in Computer Science, University of California, Davis (Current GPA: 4.0/4.0) Expected Jun 2027
Korean Government Long-term Fellowship for Overseas Study, Ministry of Science and ICT

Bachelor of Science in Computer Software, Kwangwoon University (GPA: 3.32/4.0) Feb 2015

CERTIFICATIONS & TRAINING

Certifications: Engineer Information Processing, HRDK (2013) SQL Developer, Korea Data Agency (2014)

Training: Locked Shields, NATO CCDCOE (2023) Advanced Web Application Exploits, Black Hat Training USA (2021)
